logy infrastructures, it was after a meeting in August '84 that all the States and Union Territories introduced a specific plan budget head "Scientific Services and Research". During the 7th Five Year Plan specific science and technology schemes of direct relevance to the States and UTs with focus on rural development and to deal with location specific problems have been taken up

(e) Progress of outlay and expenditure on "Scientific Services and Research" in all the States/UTs is given in Annexure. [*See* Appendix CXLIV Annexure No 82].

(f) No survey has been conducted state-wise to assess the results. However, every year, at the time of Annual Plan discussions, the progress of various schemes is discussed. Officers also visit various States to have on-the spot discussions relating to progress of various schemes In the Annual Plan discussions, representatives from the central scientific Ministeries and departments are also invited so that an interactive mechanism is ensured. The detailed discussions were held with the officials of Bihar during the current year from the point of view of reviewing the progress of the Seventh Five Year Plan schemes for science and technology sector.

Development of Main Battle Tank

2018 SHRI PRAMOD MAHAJAN: Will the Minister of DEFENCE be pleased to state.

(a) whether Government's attention has been drawn to an article which appeared in the India Today of June 15, 1987 regarding the Main Battle Tank;

(b) what is Government's reaction in the matter;

(c) when this tank is going to be ready for battle effectiveness, as per the present estimate;

(d) what are the reasons for such a long delay, and

(e) whether there is effective coordination between the designers and manufacturers and the army headquarters?

THE MINISTER OF STATE IN THE DEPARTMENT OF DEFENCE PRODUCTION AND SUPPLIES IN THE MINISTRY OF DEFENCE (SHRI SHIVRAJ PATIL): (a) Yes, Sir

(b) The integrated users' team is working closely with the designers and engineers developing MBT Arjun. The interactions are useful in making MBT Arjun as one of the most modern battle tanks. As MBT Arjun has not yet been offered for the user's evaluation, the question of it not doing well in trials does not arise at all All the technical trials till now carried out by the laboratories are very satisfactory

(c) The large scale production of MBT is scheduled to commence from 1990 onwards.

(d) Development of MBT in any country is a long term programme and it generally takes more than 10 years even in advanced countries. MBT Arjun programme is still on revised schedule and the designers and engineers hope to meet the 1990 production deadline.
